

Artech Glass Handmade in Canada

With Pride and Fire

Artech Glass is a traditional glassblowing studio nestled in the Highlands of Ontario, Canada. They produce great upcycled glass tableware and handmade barware and are known for our recycled beer glasses, a repurposed beer bottle that still holds a full beer!

Terry and Jennifer are the designers, makers, owners and (honestly) the chief bottle washers.

Rebeer (re-beer)

Verb: the process of transforming a common beer bottle into an amazing beer glass using fire and skills learned in the mountains. **ie:** That cool glass was rebeered in Canada.

Noun: an upcycled beer glass that still holds a full beer. **ie:** Did you want me to fill your rebeer glass with more beer?.
